

AAA Leading the Way

Home care pilot succeeds at AAA 7

Area Agency on Aging District 7, Inc. (AAA7) is successfully implementing the My Care, My Way program. This Administration on Aging (AoA) grant-funded project demonstrates how to save Medicaid dollars while keeping people in their homes and communities – where they want to be. The My Care, My Way pilot program identifies older adults who meet the criteria of nursing facility placement and are at imminent risk of spending down to Medicaid and uses grant funds to purchase care so they can remain at home. The highly successful pilot program will run through September 2010, and AAA7 plans to continue it beyond that date.
